

Welcome to the Lion Room!

Our Lion Room is a three-year-old classroom that provides children with a firm foundation before transitioning to our mixed age Montessori classrooms. Mornings are based upon Montessori philosophies and ideals, working to foster rigorous, self-motivated growth for children in all areas of their development. The goal of this is to nurture each child's natural desire for knowledge, understanding, and respect.

Children use the Montessori materials to engage in activities specifically designed for their learning in the areas of practical life, sensorial development, natural science, social studies (geography and history), language and phonics skills, math, art, music, and more. These activities are designed to promote their social, emotional, and physical development.
